## ENVIRONMENTAL POLICY

MEPCO is committed to protect the environment, ensuring sustainable growth, and contributing to a greener future through responsible operations, compliance and innovation.

### MEPCO's Commitments:-

- ❖ **Compliance:** To ensure strict adherence to all applicable environmental laws, regulations, and other requirements at local, national, and international levels.
- ❖ **Pollution Prevention:** To minimize effluents and waste generation through cleaner technologies and eco-friendly practices.
- ❖ **Resource Conservation:** To optimize the use of natural resources such as water, energy & raw materials and promote circular economy principles.
- ❖ **Sustainable Practices:** To integrate sustainability into all operations, projects and decision-making processes to reduce environmental impact.
- ❖ **Continual Improvement:** To monitor, evaluate and continually improve environmental performance through measurable objectives and innovation.
- ❖ **Awareness and Training:** To conduct training programs and awareness campaigns for employees, contractors and stakeholders to build a culture of environmental responsibility.
- ❖ **Biodiversity Protection:** To safeguard natural habitats, prevent ecological degradation, and support biodiversity conservation initiatives.
- ❖ **Climate Responsibility:** To reduce greenhouse gas emissions, promote carbon neutrality goals and adapt strategies to address climate change challenges.
- ❖ **Green and Renewable Energy:** To encourage the adoption of renewable energy sources, energy-efficient technologies, and green infrastructure.
