SSH 15 High quality Super Fine Leafing Aluminium Paste has a specially controlled particle size range in corn flake morphology in mineral spirit with or without other solvent combination as pasting agent. Its controlled particle size, narrow PSD and properly oriented flakes gives smooth finish without protrusion makes the surface smooth. Due to its enhanced leafing, high coverage it can provide strong, high brilliant metallic effects and hence suitable for applications like industrial coatings, can coatings, coil coatings, paper coatings, spray paintings, printing inks etc
